

Energy Transition

Green Economics

Climate Strategies

Sustainable Cities

Strategic Communications

Innovative Green Development Program

Non-profit consultancy focused on **China's green and low-carbon development**, energy transition, and 30/60 goals.

iGDP projects and products strengthen the **design and implementation** of low-carbon solutions in key areas of work.

With a focus on **subnational actions**, iGDP projects emphasize action planning, policy tracking, knowledge sharing, and policy promotion.
