

2nd INTERNATIONAL FORUM ON LOW CARBON CITIES

6-8 December 2022

Incheon, Republic of Korea (Hybrid)

Introduction of the Forum

Ganbold Baasanjav

Head of UNESCAP East and North-East Asia Office

6 December 2022

Incheon, Republic of Korea

The world is facing unparalleled multidimensional global crises

- **Global emissions must decline by at least 45% by 2030 and achieve net carbon zero by 2050;**

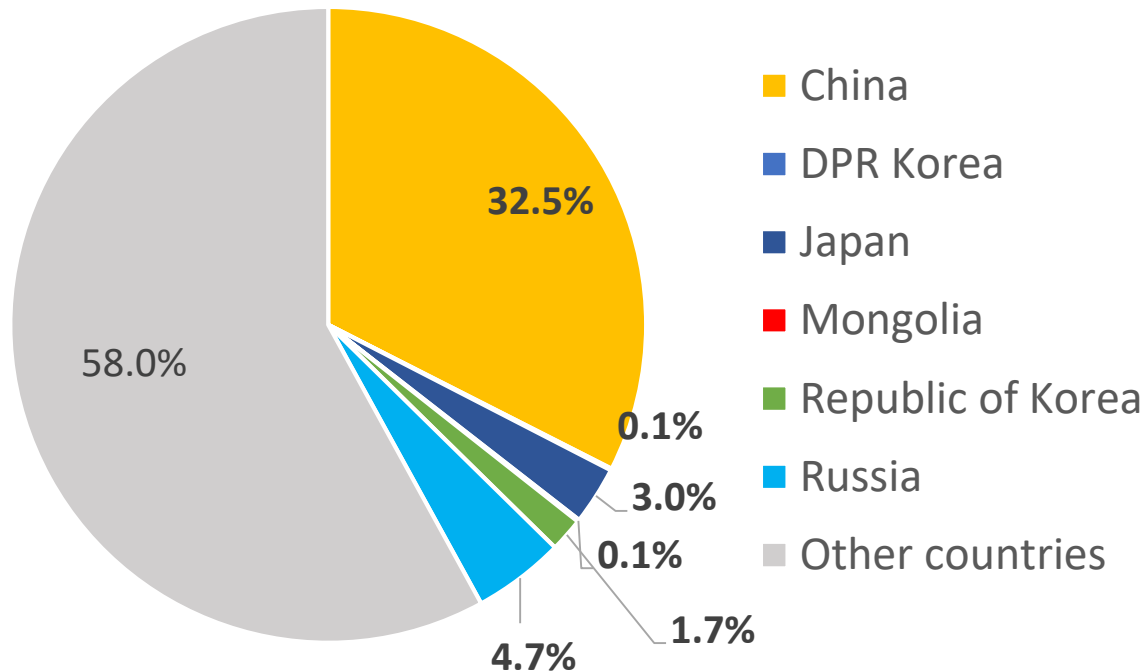

- **Immediate action is required to turn policy ambitions into impact, and the roles of cities are crucial.**

North-East Asia Low Carbon City Platform

Global CO₂ Emissions from Fossil Fuels

(Data: EDGAR, European Commission 2020)

- **42% of global CO₂ emissions** from fuel consumption (2020) are from North-East Asia
- **The North-East Asia Low Carbon City Platform** was launched in 2014 to
 - Promote low-carbon strategies
 - Support their implementation
 - Share knowledge & build the capacity
 - Strengthen partnership

2nd International Forum on Low Carbon Cities – Objectives

- **The Forum will facilitate information and knowledge exchange:**
 - (Session1) Climate agenda for cities
 - (Session2) Nature-based and innovative solutions
 - (Session3) Circular economy
 - (Session4) Green financing
 - (Session5) Citizen and stakeholder engagement
 - (Session6) Roles of regional cooperation
- **The Forum will also promote engagement with partners and empower cities to secure a low-carbon and resilient future**

Way Forward

- **Governments**
 - Create enabling environment and fiscal space
- **Financial institutions and private sector**
 - Environmental and social governance framework for cost-effective and impactful green investment
- **City Sectors**
 - Innovative approaches to achieve urban decarbonization
