

North-East Asian Marine Protected Areas (NEAMPAN)

Established in 2013 under the North-East Asian Subregional Programme for Environmental Cooperation (NEASPEC), NEAMPAN is the sole MPA network in North-East Asia, dedicated to enhancing the management of the region's MPAs.

OBJECTIVE

Establish an effective, functional, and representative network of Marine Protected Areas (MPAs) in the subregion.

Serves as a platform for:

- Information sharing
- Joint assessment and monitoring
- Partnerships with other global/regional MPA networks

CAPACITY BUILDING & AWARENESS-RAISING

NEAMPAN Activities:

- International workshops
- expert meetings
- Webinars/seminars

Participants:

- MPA managers
- government officials
- Researchers
- international organizations
- Civil Societies

RESEARCH

- **“Management plans, monitoring and assessment of MPAs”:** Analysis of MPA management, effectiveness assessments, and plan integration at selected NEAMPAN sites.
- **Study on “Ocean-based climate actions of NEAMPAN sites” :** Examine ocean-based action for climate change among NEAMPAN sites.

CALL FOR COLLABORATION

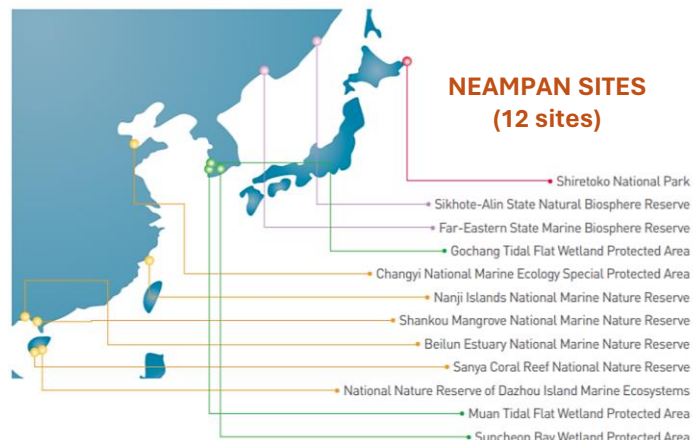

We invite potential partners to join us in strengthening marine conservation efforts by sharing best practices, aligning with global conservation objectives, and expanding our collaborative network to enhance the management and effectiveness of Marine Protected Areas (MPAs) worldwide.

PLANNED ACTIVITIES IN 2024-2025

NEAMPAN plans to conduct following activities in consultation with the Steering Committee, National Focal Points, MPA managers, partners and experts:

- **International NEAMPAN workshop in China (Q3/4 2024)**
- **Study on ocean-based climate actions at NEAMPAN sites**
- **Develop strategic framework and action plan for 2026 – 2030**

NEAMPAN SITES (12 sites)

NEAMPAN focal points:

- Mr. Kazuhiko Seriu (kazuhiko.seriu@un.org)
- Ms. Mi-Jin Lee (lee62@un.org)
