

Biodiversity and Nature Conservation

NEASPEC facilitates transboundary cooperation to conserve wildlife in North-East Asia, with focus on its six flagship species (Amur tiger, Amur leopard, Snow leopard, Black-faced spoonbill, White-naped crane and Hooded crane), by ensuring their survival and enhancing coordinated conservation mechanisms based on the NEASPEC Nature Conservation Strategy.

BIG FELINE SPECIES

Promote Conservation of Big Feline Species and essential top predators for ecosystem balance through:

- Fostering Collaboration Among Member States
- Exchanging of Scientific Knowledge
- Bridging the Gap Between Science and Policy

MIGRATORY BIRDS

Facilitate the joint monitoring activities of migratory birds and their habitats into a unified ecological community through:

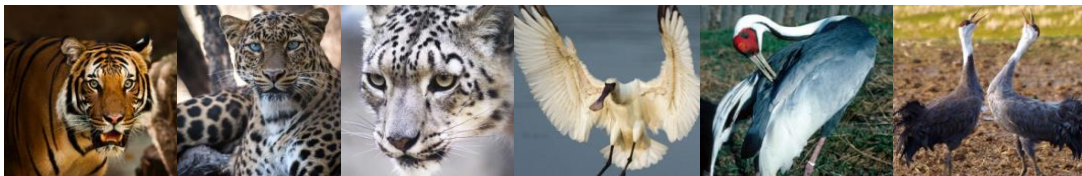

- socio-economic analysis
- linking multiple countries and transcending borders

CONNECTIVITY CONSERVATION

Examine cases for better management of key transboundary areas for environmental cooperation to call for coordinating efforts. Some flagship initiatives include:

- **“Managing Connectivity Conservation in North-East Asia: Case of Dauria International Protected Areas”**
- **“Transboundary Cooperation among Protected Wetlands in the Lower Tumen River Area”**

CALL FOR COLLABORATION

We invite potential partners to join us in strengthening transboundary environmental cooperation, aligning with global conservation objectives and national biodiversity goals, through joint activities and partnerships.

PLANNED ACTIVITIES IN 2024-2025

NEASPEC plans to conduct following activities in consultation with member States, National Focal Points, partners and experts:

- **International workshop on nature conservation (August 2024, Republic of Korea)**
- **Project “Connectivity conservation for habitats of flagship migratory birds in North-East Asia (Black-faced Spoonbills, Hooded Cranes and White-naped Cranes)”**
- Knowledge sharing platform
- **Develop strategic framework and action plan for 2026 – 2030**

- Mr. Kazuhiko Seriu (kazuhiko.seriu@un.org)
- Ms. Mi-Jin Lee (lee62@un.org)
